

Interested in a presentation?

Here is what we offer:

All presentations are approximately 45-60 minutes. This includes a question and answer portion. To book a presentation or request additional information, please email Prevention@KernBHRS.org

Drugs 101

This presentation is a comprehensive overview of the different types of substances (illegal and legal) that can lead to addiction and the signs of misuse and abuse. *This presentation is recommended for parents and professionals.*

Marijuana and Vaping

This presentation is a comprehensive overview of the various forms of cannabis as well as how cannabis affects the body and the brain. This presentation also encompasses the warning signs and risks of vaping with tobacco and cannabis use. *This presentation is recommended for students, parents, and professionals.*

The Opioid Epidemic

This presentation looks at the different types of opioids (legal, illegal, synthetic), the risks of opioid misuse and abuse, warning signs, how to talk about it, and ways to prevent misuse and abuse. *This presentation is recommended for parents or professionals.*

Student Athletes & Opioids

This presentation is tailored to the risks associated with student athletes who are injured and prescribed opioids. This presentation discusses opioids (legal, illegal, and synthetic), the risks associated with them, warning signs, and prevention efforts. *This presentation is recommended for students, parents, or professionals.*

The Science of Drugs: The Brain & The Body

This presentation provides a detailed look at the affects on the brain and body of individuals who misuse or abuse substances. This is a technical presentation, with a focus on the chemical and physical impact substances make on the brain and body. *This presentation is recommended for students, parents and professionals.*

Risk & Protective Factors

This presentation identifies risk and protective factors associated with youth substance misuse and abuse. This presentation looks at different systems (school and home) and the risk factors associated with them. It provides recommendations on building resiliency from identified protective factors in systems. *This presentation is recommended for parents and professionals.*

Prevention 101

This presentation is a general overview of ways to prevent substance use, misuse, and abuse. It covers a variety of topics from identification to refusal skills. *This presentation is recommended for students and parents.*

Social Media & You

This presentation is a comprehensive overview of how social media can impact adolescents. It also touches on ways to disconnect from social media, cyberbullying, and how social media is connected to drug and alcohol use. *This presentation is recommended for students and parents.*
